Kanat Umertayev

Project Engineer · Employer's Representative · Civil Engineer

kan.umertayev@protonmail.com +7 701 920 0189 Karaganda, Kazakhstan LinkedIn

PROFILE

Civil and project engineer with 17+ years of experience protecting owner interests across power, steel, oil & gas, mining, and major industrial construction. Experienced in project-documentation analysis, industrial design and construction management, constructability, planning, quality, and technical risk control.

Analytical judgement · Cross-functional leadership · Clear technical writing · Commercial awareness · Stakeholder alignment · Calm issue resolution

EXPERIENCE

Selected responsibilities and outcomes across 17+ years

Dec 2024 — Dec 2025
Aktobe

Civil Engineer

ERG Capital Projects LLP

Owner-side structural design management for a recovery power plant in an operating industrial environment.

— Delivered structural design through expert review within contractual deadlines.

— Coordinated multidisciplinary documentation, schedules, equipment interfaces, surveys, and foundation monitoring.

— Protected project duration and cost through risk-based planning and decisive technical requirements.

Oct 2022 — Nov 2023
Temirtau

Senior Construction Engineer

ArcelorMittal Temirtau JSC

CAPEX project assurance across steelmaking and utility assets, with a focus on constructability, governance, and recovery.

— Audited the 4th turbo-compressor project and reframed remaining contractor scope.

— Advised the 8th and 9th coke-oven battery program on compliance and contract strategy.

— Resolved late-stage design and interface issues across CHP-2 boiler, transformer, and ash-disposal projects.

Jan 2019 — Jun 2020
Aksu

Civil Constructability Engineer

ERG Capital Projects LLP

Employer's site representative for reconstruction of Power Unit No. 7 at the Aksu power station.

— Prepared construction and technical-supervision service contracts.

— Verified design against actual site conditions and coordinated contractor activity.

— Controlled as-built documentation, weekly reports, and operational interfaces.

Skip to content

Nov 2018 — Dec 2018
Karaganda

Civil Engineer

Talap Oil and Gas Services LLP

Prepared and verified supporting packages for fabricated steel structures serving the Third Generation Plant.

— Reviewed Imstalcon fabrication documentation for steel structures.

— Prepared Employer-facing reports and construction schedules.

Jul 2018 — Sep 2018
Aksai

Engineer

WorleyParsons–KGNT JV

Supervised geotechnical fieldwork and technical inspection of foundations at the Aksai oil field.

— Monitored contractor geotechnical work and foundation inspections.

— Prepared evidence-based reports on completed field quantities.

Feb 2017 — Aug 2017
Tengiz

Civil Supervisor

Isker / Orion

Supervised concrete works and developed the Primavera P6 schedule for the 5,000-person Orken camp.

Sep 2016 — Oct 2016
Zholymbet

Deputy Site Manager

A-Engineering Group LLP

Supervised construction of a reinforced-concrete gold-ore-mill foundation at a tailings-processing facility.

Sep 2014 — Apr 2016
Tengiz

Chief Engineer / Civil Engineer

Consolidated Contractors Company

Progressed through civil engineering and site leadership roles on Third Generation Plant infrastructure.

Apr 2014 — Jul 2014
Villeneuve-d'Ascq, France

Civil Engineering Intern

Université d'Artois / Lille 1

Master's thesis internship on the S.U.N.R.I.S.E. smart-grid facilities and infrastructure program.

Aug 2012 — Sep 2012
Incheon, South Korea

Geotechnical Laboratory Assistant

Incheon University

Performed laboratory soil testing as part of master's research.

Jun 2009 — Aug 2009
Karaganda

HSE Engineer

Absolute Kazakhstan Building LLP

Supported incident investigation, safety briefings, and occupational-safety documentation.

PROJECTS

Representative capital and industrial assignments

Dec 2024 — Dec 2025
Power & utilities

Recovery Power Plant

Led structural design coordination and owner-side technical assurance for a recovery power plant delivered inside an operating industrial facility.

Oct 2022 — Nov 2023
Steel & utilities

4th Turbo Compressor

Audited an industrial turbo-compressor modernization package and turned fragmented project records into a decision-ready recovery plan.

2022 — 2023
Power & utilities

CHP-2 Boiler & Transformer

Joined a late-stage energy project to resolve design-to-field discrepancies and strengthen civil, structural, and cable-package coordination.

2022 — 2023
Metals & mining

Coke Oven Batteries 8 & 9

Advised project leadership on construction compliance, contract strategy, scope alignment, and acceptance of internationally executed works.

Jan 2019 — Jun 2020
Power & utilities

Aksu Power Unit No. 7

Represented the Employer during reconstruction of a major power unit, connecting field reality with design, contracts, and weekly controls.

Sep 2014 — Apr 2016
Oil & gas

Third Generation Plant

Led and coordinated civil workfronts for a major oil-and-gas expansion, spanning design verification, site delivery, quality, planning, and stakeholder interfaces.

EDUCATION

Master's — Urban Engineering & Habitat

2013 — 2014

Lille 1 University of Science and Technology · Villeneuve-d'Ascq, France

International graduate study with applied research in smart infrastructure, urban systems, GIS, and geodetic survey work.

Master's — Civil Engineering

2011 — 2013

Karaganda State Technical University · Karaganda, Kazakhstan

Graduate civil-engineering study; winner in a Republic-level competition for sustainable projects.

Bachelor's — Civil Engineering

2007 — 2011

Karaganda State Technical University · Karaganda, Kazakhstan

Core training in civil, structural, geotechnical, and construction engineering.

CREDENTIALS

Site Manager Licence

Republic of Kazakhstan · Active credential

Certificate of Site Manager, MAMAN №000073.

IOSH Managing Safely

Steel & Mining Production · Feb 2023

Certificate KP-2023-1663.

Quality Management System — Introductory

Consolidated Contractors Company · Feb 2015

Foundational quality-management system training.

Bearing Method in Saline Soils

Kazakhstan Patent KZ No. 22796 · Issued Apr 2013

Patent covering a pipe-framework bearing method for saline-soil conditions.
